

April 1, 2024

Dear Philadelphia Children's Foundation,

On behalf of the students, staff, and faculty of Lankenau Environmental Science Magnet High School, we wish to sincerely thank the Philadelphia Children's Foundation for your concerted time, effort, and energy to work with and help better the students and staff of Lankenau.

In the current climate of setbacks and cutbacks, the beautiful and concrete work that you have created has given us a new vested interest and a push to again move forward. We are proud of our school and with your help, we will be able to generate increased learning opportunities for students.

Your donation to Lankenau is providing over 40 students the exposure to experience the hands-on application of computer related technology. Without your help, time, and dedication to public education in the agricultural sector, Lankenau would not have the opportunity to further work towards obtaining our growth goals. We are extremely grateful.

Sincerely,

Student and Staff of Lankenau
